..... BARNESLEY GARDENS RESORT'S HISTORIC HUNTING PRESERVE .....

# hunting

SpringBank Plantation, Barnsley's very own historic hunting preserve, encompasses 1,800 acres, which have been developed and managed for some of the **finest upland quail and pheasant hunting in the world**. The hunting courses are made up of nine large zones, which include both rolling hills and flat lands, that have been planted with excellent quail habitat such as broomsedge, lovegrass, partridge peas, milo, and native grasses. The tall Georgian plantation pines make it challenging for hunters, as bobwhite coveys burst into the air, reminiscent of the days when wild birds were prominent in this part of the world.

Perfect for hunters of all levels, SpringBank Plantation offers quail, pheasant, turkey, and deer hunting. Half-day, full-day and overnight hunting trips are available.
